8. Communication of a personal data breach to the data subjects

'Personal data breach' means a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed.

When the personal data breach is likely to result in a high risk to the rights and freedoms of natural persons, SZIGET shall communicate the personal data breach to the data subject without undue delay using clear and plain language.

The communication to the data shall not be required if any of the following conditions are met:

- a) the controller has implemented appropriate technical and organisational protection measures, and those measures were applied to the personal data affected by the personal data breach, in particular those that render the personal data unintelligible to any person who is not authorized to access it, such as encryption;
- b) SZIGET has taken subsequent measures which ensure that the high risk to the rights and freedoms of data subjects is no longer likely to materialise;

it would involve disproportionate effort. In such a case, there shall instead be a public communication or similar measure whereby the data subjects are informed in an equally effective manner.

9. The rights and legal remedies of data subjects:

In addition to data subjects' rights regarding the use of the recordings specified above, data subjects may exercise the following rights related to processing under this notice:

Right to information and to access the data:

The data subject shall have the right to obtain from SZIGET confirmation as to whether or not personal data concerning him or her are being processed, and, where that is the case, access to the personal data and the following information:

- a) the purposes of the processing;
- b) the categories of personal data concerned;
- c) the recipients or categories of recipients to whom the personal data have been or will be disclosed, in particular recipients in third countries or international organisations;
- d) where possible, the envisaged period for which the personal data will be stored, or, if not possible, the criteria used to determine that period;

- f) the right to lodge a complaint with a supervisory authority;
- g) where the personal data are not collected from the data subject, any available information as to their source;
- h) the existence of automated decision-making, including profiling and, at least in those cases, meaningful information about the logic involved, as well as the significance and the envisaged consequences of such processing for the data subject.

Where personal data are transferred to a third country or to an international organisation, the data subject shall have the right to be informed of the appropriate safeguards relating to the transfer.

SZIGET shall provide a copy of the personal data undergoing processing. For any further copies requested by the data subject, SZIGET may charge a reasonable fee based on administrative costs. Where the data subject makes the request by electronic means, and unless otherwise requested by the data subject, the information shall be provided by SZIGET in a commonly used electronic form.

The right to obtain a copy referred to in the previous paragraph shall not adversely affect the rights and freedoms of others.

The aforementioned rights may be exercised via the contact information specified in section 10.

Right to rectification:

The data subject shall have the right to obtain from SZIGET without undue delay the rectification of inaccurate personal data concerning him or her. Taking into account the purposes of the processing, the data subject shall have the right to have incomplete personal data completed, including by means of providing a supplementary statement.

Right to erasure ('right to be forgotten'):

The data subject shall have the right to obtain from SZIGET the erasure of personal data concerning him or her without undue delay where one of the following grounds applies:

- a) the personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed;
- b) the data subject withdraws consent on which the processing is based, and where there is no other legal ground for the processing;
- c) the data subject objects to the processing and there are no overriding legitimate grounds for the processing, or processing is related to direct marketing;
- d) the personal data have been unlawfully processed;
- e) the personal data have to be erased for compliance with a legal obligation in Union or Member State law to which the controller is subject;
- f) the personal data have been collected in relation to the offer of information society services.

The erasure of the data may not be requested to the extent that processing is necessary:

- a) for exercising the right of freedom of expression and information;
- b) for compliance with a legal obligation which requires processing by Union or Member State law to which the controller is subject or for the performance of a task carried out in the public interest;
- c) for the performance of a task carried out in the public interest; for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services on the basis of Union or Member State law or pursuant to contract with a health professional, when those data are processed by or under the responsibility of a professional subject to the obligation of professional secrecy under Union or Member State law or rules established by national competent bodies or by another person also subject to an obligation of secrecy under Union or Member State law or rules established by national competent bodies.
- d) for reasons of public interest in the area of public health, such as protecting against serious cross-border threats to health or ensuring high standards of quality and safety of health care and of medicinal products or medical devices, on the basis of Union or Member State law which provides for suitable and specific measures to safeguard the rights and freedoms of the data subject, in particular professional secrecy;
- e) for reasons of public interest in the area of public health, when those data are processed by or under the responsibility of a professional subject to the obligation of professional secrecy under Union or Member State law or rules established by national competent bodies or by another person also subject to an obligation of secrecy under Union or Member State law or rules established by national competent bodies;
- f) for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes in so far as the right to erasure is likely to render impossible or seriously impair the achievement of the objectives of that processing¹; or
- g) for the establishment, exercise or defence of legal claims.

¹ Processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes, shall be subject to appropriate safeguards for the rights and freedoms of the data subject. Those safeguards shall ensure that technical and organisational measures are in place in particular in order to ensure respect for the principle of data minimisation. Those measures may include pseudonymisation provided that those purposes can be fulfilled in that manner. Where those purposes can be fulfilled by further processing which does not permit or no longer permits the identification of data subjects, those purposes shall be fulfilled in that manner.

Right to restriction of processing:

The data subject shall have the right to obtain from SZIGET restriction of processing where one of the following applies:

- a) the accuracy of the personal data is contested by the data subject, for a period enabling the controller to verify the accuracy of the personal data;
- b) the processing is unlawful and the data subject opposes the erasure of the personal data and requests the restriction of their use instead;
- c) SZIGET no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims; or
- d) the data subject has objected to a processing carried out by SZIGET in the public interest or for a legitimate interest; pending the verification whether the legitimate grounds of the controller override those of the data subject.

Where processing has been restricted for the aforementioned reasons, such personal data shall, with the exception of storage, only be processed with the data subject's consent or for the establishment, exercise or defence of legal claims or for the protection of the rights of another natural or legal person or for reasons of important public interest of the Union or of a Member State.

A data subject who has obtained restriction of processing pursuant to the aforementioned reasons shall be informed by SZIGET before the restriction of processing is lifted.

- a) the processing is based on consent or on a contract; and
- b) the processing is carried out by automated means.

In exercising his or her right to data portability pursuant to above, the data subject shall have the right to have the personal data transmitted directly from one controller to another, where technically feasible.

The exercise of the right to data portability shall be without prejudice to the right to erasure ('right to be forgotten'). That right shall not apply to processing necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

The right to data portability shall not adversely affect the rights and freedoms of others.

Right to object:

The data subject shall have the right to object, on grounds relating to his or her particular situation, at any time to processing of personal data concerning him or her by SZIGET which is based on the performance of a task carried out in the public interest or in the exercise of official authority vested in SZIGET or is necessary for the purposes of the legitimate interests pursued by SZIGET or by a third party, including profiling based on those provisions. SZIGET shall no longer process the personal data unless SZIGET demonstrates compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject or for the establishment, exercise or defence of legal claims.

Where personal data are processed for direct marketing purposes, the data subject shall have the right to object at any time to processing of personal data concerning him or her for such marketing, which includes profiling to the extent that it is related to such direct marketing. Where the data subject objects to processing for direct marketing purposes, the personal data shall no longer be processed for such purposes.

Right to withdraw consent:

The data subject shall the right to withdraw his or her consent at any time, provided that the processing by SZIGET is based on the data subject's consent. The withdrawal of consent shall not affect the lawfulness of processing based on consent before its withdrawal.

Procedure for the exercise of the aforementioned rights upon request by the data subject:

SZIGET shall provide information on action taken on a request related to the exercising of the rights set forth in this Notice to the data subject without undue delay and in any event within one month (30 days) of receipt of the request. That period may be extended by two further months where necessary, taking into account the complexity and number of the requests.

SZIGET shall inform the data subject of any such extension within one month of receipt of the request, together with the reasons for the delay. That period may be extended by two further months (60 days) where necessary, taking into account the complexity and number of the requests. Where the data subject makes the request by electronic form means, the information shall be provided by electronic means where possible, unless otherwise requested by the data subject.

If SZIGET does not take action on the request of the data subject, it shall inform the data subject without delay and at the latest within one month of receipt of the request of the reasons for not taking action and on the possibility of lodging a complaint with a supervisory authority and seeking a judicial remedy.

SZIGET shall provide the requested information and notification free of charge. Where requests from a data subject are manifestly unfounded or excessive, in particular because of their repetitive character, SZIGET may either charge a reasonable fee taking into account the administrative costs of providing the information or communication or taking the action requested, or refuse to act on the request.

SZIGET shall communicate any rectification or erasure of personal data or restriction of processing carried out to each recipient to whom the personal data have been disclosed, unless this proves impossible or involves disproportionate effort.
